- Identified drug-related problems using information from the patient and/or Resource and Patient Management System (RPMS) and recommended solutions to the patient and/or provider
- Provided pharmacy services to the inpatient department including daily rounding, medication discharge counseling, and medication reconciliation at admissions and discharge

cGMP Services, Temple University School of Pharmacy

cGMP MANUFACTURING TECHNICIAN

4 hours/week

Apr 2012 - Jan 2014

- Manufactured, stored, packaged, and randomized placebo and active material for clinical trial use
- cGMP standards
- Aided in development of SOPs and training of new employees
- Coordinated manufacturing and packaging activities among technicians

University at Albany, State University of New York

SCIENCE & MATH TUTOR

2 hours/week

Nov 2010 - Aug 2011

- Tutored learning-disabled and abled undergraduate and graduate students in subjects including Organic Chemistry, General Chemistry, Environmental Chemistry, and Calculus

Chemical Development, AMRI

RESEARCH SCIENTIST I

45 hours/week

Jun 2008-May 2010

- Designed chemical experiments, interpreted resultant spectra and chromatographs, and formulated new reaction conditions and synthetic routes to improve and scale-up API synthesis
- Documented API production for use in pre-clinical animal studies, according to GLP standards
- Synthesized hazardous chemotherapeutic APIs on mg to kg scales
- Developed a novel kg-scale synthesis of 3-aminonaphthlene-1-ol, a chemotherapeutic precursor; researched a novel ambroxide synthesis

Pharmacy Practice Experience

Philadelphia Poison Control Center

PHARMACIST INTERN

45 hours/week

Mar 28, 2016 - May 05, 2016

- Initiated and contributed to “Unique N-Acetylcysteine (NAC) Considerations Dosing Guideline”, an internal guidance on the use of NAC in acetaminophen overdose
- Followed up on poisoned patients by calling caregivers to request appropriate lab tests, signs, and symptoms; and to provide appropriate information, as per the POISINDEX, and other toxicology references
- Presented patient cases for discussion in weekly meetings
- Reviewed and presented toxicology topics for discussion in weekly meetings; topics included overdose of acetaminophen, salicylates, opiates and other drugs of abuse, cardiovascular drugs, psychiatric drugs, heavy metals, and toxic plants and fungi
- Attended and participated in lectures on topics including management of opioid overdose, toxicokinetics, geographic information systems; and attended a toxicology case conference

Ketchikan Indian Community Tribal Health Clinic

PHARMACIST INTERN

45 hours/week

Feb 16, 2016 - Mar 23, 2016

- Assessed new prescriptions and refill requests for drug related problems
- Documented actions taken in the Resource and Patient Management System
- Counseled patients on new medications, medication changes, and smoking cessation
- Monitored warfarin therapy at the pharmacy-run anticoagulation clinic using point-of-care INR monitoring, and modified therapy appropriately
- Counseled patients on smoking cessation, and initiated appropriate pharmacotherapy after appropriate screening as part of the pharmacy-run smoking cessation clinic
- Answered drug information questions from clinicians and patients by consulting Micromedex and other drug databases, and searching the primary literature

Cancer Treatment Centers of America

PHARMACIST INTERN

42 hours/week

Jan 04, 2016 - Feb 11, 2016

- Reviewed patient records in Epic EHR, and proposed and discussed medication changes during regular interdisciplinary rounds
- Reviewed, presented, and discussed relevant literature and interesting patient cases in journal club discussions
- Assisted inspection of nursing unit pharmacy satellites
- Compounded sterile preparations including syringes, large volume parenterals, and IV piggy-bags

Temple University Hospital – Respiratory ICU

50 hours/week

PHARMACIST INTERN

Nov 02, 2015 - Dec 10, 2015

- Rounded daily with the interprofessional MICU team
- Assessed patients for drug-related problems including inappropriate or sub-optimal therapy, and lack of indicated therapy
- Communicated drug therapy recommendations to the MICU team, verbally and in writing
- Provided drug information and pharmacokinetic calculation services
- Participated in weekly journal club and patient case discussions

Pennsylvania Hospital – Outpatient Pharmacy

42 hours/week

PHARMACIST INTERN

Sept 21, 2015 -

- Aided patient decision making with regards to OTC self-medication or referral to a physician
- Counseled patients on new medications and medication changes upon discharge from the hospital
- Screened incoming prescriptions for errors and omissions, and dispensed medications
- Compounded non-sterile products including solutions, creams, and ointments
- Stocked and operated the robotic prescription filling system

Temple University Hospital-Investigational Drug Service

45 hours/week

PHARMACIST INTERN

Aug 11, 2015 - Sept 17, 2015

- Reviewed study protocols and attended relevant Institutional Review Board meetings
- Developed a pharmacy procedure for investigational drug labeling
- Compounded and dispensed investigational drugs
- Prepared a pharmacy budget proposal for a new investigational drug protocol
- Discussed topics in clinical research ethics at daily meetings; topics included the Tuskegee study, the Nuremberg Code, the Declaration of Helsinki, the Belmont Report, Acres of Skin, The Immortal Life of Henrietta Lacks, and many others

Temple University Hospital – Inpatient Pharmacy

3 hours/week

PHARMACIST INTERN

Jan 26, 2015 - Apr 27, 2015

- Counseled patients on smoking cessation including cessation benefits, state cessation programs and quitline, NRT and other available pharmacotherapy, drug-tobacco interactions, and other smoking-related topics
- Counseled patients on warfarin therapy initiation or change including the patient's indication for anticoagulation, target INR, the importance of monitoring and frequency of monitoring, dietary considerations, interactions with herbs and supplements, and other anticoagulation-related topics

Volunteer Experience

Medical Reserve Corps

2.5 hours/week

PHARMACIST

2020 – Present

- Rensselaer County COVID-19 info line phone bank volunteer
- Delaware Medical Reserve Corps volunteer immunizer

Bikeatoga

6 hours/week

GRANT COORDINATOR & MECHANIC

2016 – 2020

- Applied for and won a \$6,100 grant from the Capital District Transportation Committee to fund bike safety courses, purchase and install a bicycle repair stand at the local library, and purchase and distribute bike safety items (including helmets, lights, bells) at our regular events and workshops
